## The FIVICS quest for perfection is on-going

FIVICS pursuit of excellence is fueled by creativity, trial and error, and innovation coupled with a passion to bring you the shooter the best products available.

FIVICS President  
**Baek, Jong Dae**

A stylized white signature of Baek, Jong Dae.

***AT FIVICS,*** It is our mission to develop cutting edge innovations to help our customers reach their maximum potential. Technology, creativity and experience all come together to bring you, the customer, the best quality archery equipment available.

**ADVANCED  
SPACE-AGE  
TECHNOLOGY**

Top shooter's Choice  
**FIVICS!**

- STABILITY
- ACCURACY
- CLEAN SHOOTING FEELING
- STYLISH DESIGN
- TRIPPLE DAMPING SYSTEM

## FIVICS FX1 RISER

100% CNC

High performance recurve FX1 BOW  
Tuning and harmony are dramatically advanced

CLEAN FEELING SHOT  
SUPERIOR ACCURACY

Speed, Power, Balance, Precision, Elegance  
all working with you, the archer, in perfect harmony.  
The FIVICS FX1 Bow.

- The FX1 incorporates the "TRIPPLE VIBRATION ZERO SYSTEM" reducing vibration in three degrees.
- The FX1 "Center Control System" incorporates a steel ball, to reduce the movement up and down
- Stable grip - "V-ZERO damping system" is inserted inside of the grip to eliminate vibration and noise for a clean vibration free shot. Grip design ergonomics provide for an easy and exact "Target point" with maximum concentration, when at full draw.
- The FX1 system gives you stunning balance between Riser and Limbs working in perfect synchronicity for a truly exquisite shot.
- FX1's modern innovation & efficiency of design reduces pitching and yawing, this eliminates excess movement for the best shot experience.

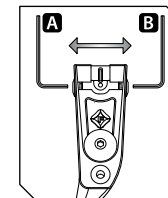

We achieved a reduction in the yawing time

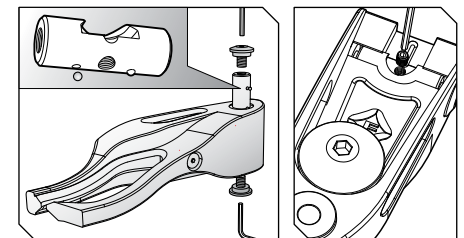

NORMAL RISER

FX1

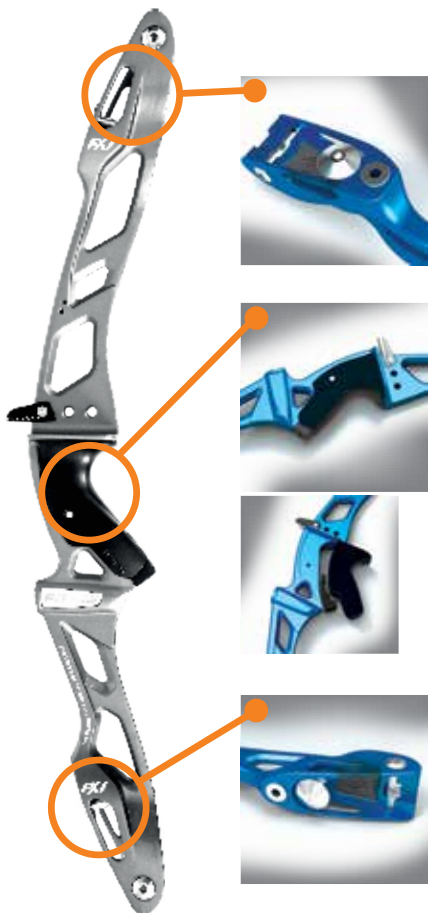

Loosen A and tighten B, then Center moves to direction B. After Set-up, please always tighten the bolt on the opposite side.

Steel ball included and fix with set bolt, to reduce the movement up and down in this system.

[HM-FX1]

Top part of the riser : Absorption of vibration from limbs to the riser through inserted damping system at the primary contact point

Grip part : - Inserted damping system mid-riser offers the best shot feeling by eliminating vibration at this critical contact point with the archer's hand  
- FIVICS NEW ergonomic grip is created to offer the most exact and correct position for smooth shot execution

Low part of the riser : Absorption form the first vibration from limbs to the riser through inserted damping system

## High- polish ANODIZE

## F1 SPECIFICATIONS

LENGTHS	25"
MATERIAL	Aluminum(6061), Rubber
WEIGHT	1,240g
TYPE	RH / LH

## THE WORTH OF TRANSCENDING TIME AND SPACE MERIDIAN FX1

### MERIDIAN-FX1 LIMBS

#### WHAT IS THE BEST?

In archery we try to reach the top of our game, the summit, the peak. To do this we search for the perfect balance between our potential and our equipment. Now FIVICS has the key to the top of your climb. The Meridian FX1

POWERFUL ENERGY  
POWERFUL SPEED  
CLEAN FEELING SHOT

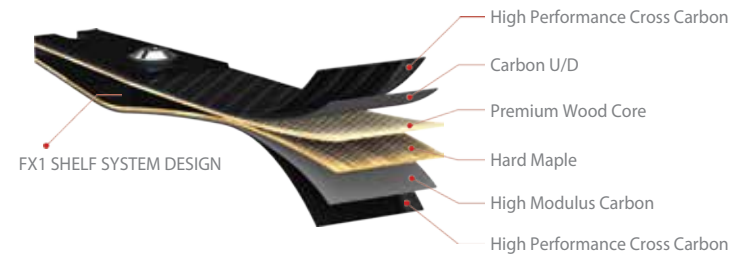

Meridian -->> peak, high point, pinnacle. We call the FX1 "Meridian for a reason. It is the top. It is where you are trying to go. When you have the best limb you can have the confidence to reach your potential.

POWERFUL ENERGY  
POWERFUL SPEED

By combining space age materials with an innovative recurve profile, the Meridian FX1 limbs offer maximum energy transfer to the arrow. Speed, stability and precise delivery all work in harmony to give a shooting experience unlike any before.

#### SPECIFICATION

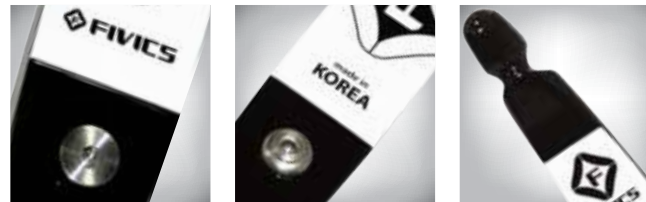

Using a premium wood core with high quality carbon to reduce the vibration, makes your shot fast and stable.

#### MERIDIAN FX1 & MERIDIAN RX1

Available Lengths : 66" 68" & 70"

Available weights : 28#~48# (Increments)

[PG-FX1]

## THE WORTH OF TRANSCEND TIME AND SPACE MERIDIAN RX1

### MERIDIAN RX1 LIMBS

The quest? Simple, to design a limb that exceeds all others.  
The method? Find out what archers want and go beyond.  
The vision? Create a limb that eclipses all expectations.

#### Premium Shooting Feel

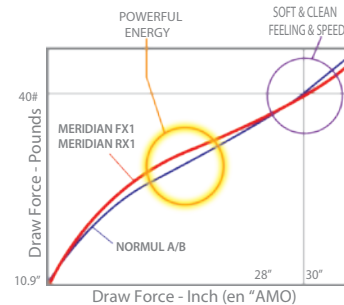

FIVICS engineers have combined the latest in space age materials with cutting edge design innovations to bring you a limb with no equal. Introducing The MERIDIAN FX1 & MERIDIAN RX1

First we asked top archers what they liked and what they were missing in a limb. Then our scientists started from scratch to create a limb that was truly unique. A limb that embodied speed, accuracy and a pleasant shot, but took performance to a new level. Our proprietary design incorporates a whole new recurve geometry coupled with advanced carbon technologies to produce a limb destined to change the way we look at the recurve limb.

**FAST, SMOOTH, ACCURATE.....MERIDIAN FX1 & MERIDIAN RX1**

#### FORCE-DRAW CURVE

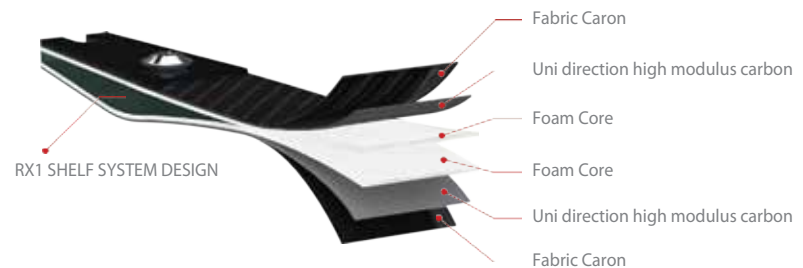

FIVICS "MERIDIAN FX1 / MERIDIAN RX1 Limbs medium length on 25" riser 40.3 lbs @ 28"/ 30" / 32"

Draw Weight : 40.3 lbs @ 28"/30"/32"  
Limb Length : medium (68" Bow Length on 25" Riser)  
Brace Height : 7-3/4"-8-3/4" (depending on riser)  
Physical Weight : 365 Gramm oz (pair)

#### SPECIFICATION

Using a foam core with high quality carbon to reduce the vibration, makes your shot fast and stable.

## FV-100 CARBON SIGHT

Exclusive style, Excellent Accuracy  
Simple system design  
Quiet with reduced vibration

## TC REST

Height adjustable high-end rest  
 Durable construction for precise and secure positioning

[MR-T]

## MR REST

Solid design for zero tolerance of error in position and angle.  
 Stainless steel ensures durability while reducing friction.

[MR-A]

## PR REST

Durable, inexpensive beginner rest

[PR-F]

## PHOENIX COMPOUND STABILIZER

Weights and vibration problems? Solved!

New compound tournament stabilizer, 'PHOENIX' incorporates an advanced high elastic material. Normally, compound top pro-archers use many weights on the stabilizer, but a normal stabilizer cannot control the weights and vibration together. However, the NEW PHOENIX OURNAMENT stabilizer has a very strong spine, which means no noise and vibration. Now it's ok to use many weights, because more weight equals better vibration reduction like never before. Moreover Phoenix Tournament stabilizer has a light but durable spine, it's ideal for all men and women.

Painted

[VZ-1000]

[VM5-1000]

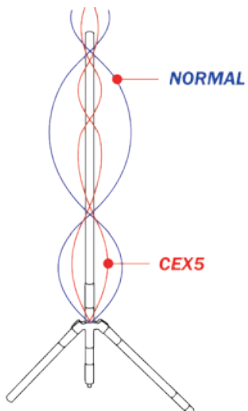

## CEX5 STABILIZER

The aim of the CEX5 stabilizer is total balance and harmony with the arrow. It's the best stabilizer for speed and vibration reduction, CEX5 has passed careful inspection successfully, it makes archers confident, it is different from other stabilizer

To eliminate even the smallest vibration  
Support the highest speed and stability  
Oscillation control available for both recurve and compound bow

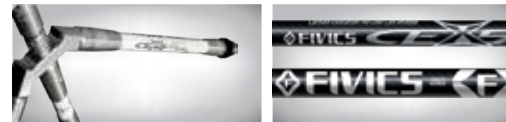

Special Strong Spine Material

[YB-A]

Size : 414mmX694mm [YB-A]

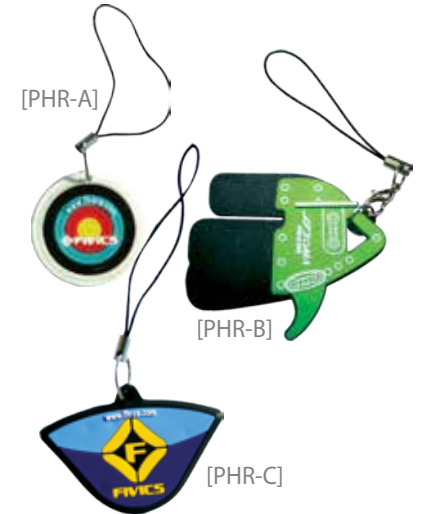

## STRAFE BOWSTRING

67% SK75 dyneema, 33% vectran  
Half the strand size of 450 plus  
Slightly higher arrow speed  
More strand count improves flexibility.  
Looks great for multi-colored strings

No creep : completely stable  
Recommended strands : 22 / 24  
Approx ft / lb waxed : 8800  
Speed size : 1lb

## PHONE RING

## DACRON BOWSTRING

Strings : Meticulously ready made string  
RECURVEBOW & TRADITIONAL BOW & CROSSBOW

Material : DACRON STRING & NYLON SERVING  
Serving color : Red/Blue/Green/Yellow/White/Black

Water Proof Target Face

## FIVICS Target Face Function

[Out Door, In Door, Training, Field]

- + Material : Polyester
- + Thickness : 0.29mm
- + Tensile strenght (kg/cm2) : (L- 40.0 / W- 17.0)
- + Temperature range : -32 ~ 260 C
- + Printing error range : 99.9% (Best "Quality")
- + Average shootings : Over 500~800

[Available also in economic Target face in all the range of size]

- + Waterproofing
- + Useable under any weather condition
- + High tensile strenght and coherence
- + Little crumpling and tearing
- + Hardly change in the shape and color
- + Allow no light reflection
- + No damage to the score line
- + Favoring environment - availble recycling and safe incineration
- + Safely transportable and manageable, and unnecessary protective equipment

# ADVANCED SPACE-AGE TECHNOLOGY

## NANO-PRO

**Nano-Pro™** Nano-Pro is our newest nano-carbon arrow designed specifically for FITA, NAA, long-distance field shooting. Engineered with incredibly light yet strong 46-ton carbon, Nano-Pro recovers even faster out of the bow than Nano-XR while delivering the flattest trajectory and superior down range accuracy. It has the smallest diameter of any of our target arrows, which means, it nearly eliminates cross-wind drift. And unlike aluminium core arrows, Nano-Pro won't take a set (permanent) bend.

Spline-Selected for a consistent matched set.

### FIVICS Pin Nock

This universal pin nock fits all standard pin nock adapters. It is made from a durable polycarbonate material that performs shot after shot.

Size: S / L

Color:

## NANO-PRO Components

1P (450 ~ 600), 2P (650 ~ 900)  
Stainless Steel Target Point (PSL-P)

Tungsten Target Point (PTG-P)

450 / 12pk	8.0	450	0.200"
400 / 12pk	8.6	400	0.205"

# NANO-XR

**Nano-XR™** Introduced in 2007, Nano-XR was the first target arrow engineered from 40-ton carbon to deliver superior down-range accuracy, strength and consistency shot after shot. It's ultra small diameter dramatically reduces cross-wind drift and is the ideal arrow for FITA, NAA and NFAA long-distance shooting. In side-by-side tests, Nano-XR consistently outperformed comparable aluminium core/ carbon arrows in strength, recovery out of the bow, consistency and velocity (for more, visit nanokr.com). In only its first year on the market, Nano-XR won the Gold Medal at the 2007 FITA World Championship.

Spline-Selected for a consistent matched set.

## FIVICS Pin Nock

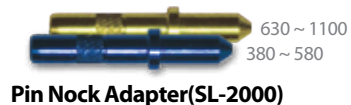

This universal pin nock fits all standard pin nock adapters. It is made from a durable polycarbonate material that performs shot after shot.

## ZEILO

**ZEILO** is the target arrow for youth and beginners. NEW Acrossweave of pure carbon layer gives the Baek's unequaled strength, even on lightweight pure carbon arrows. This cross-woven method of construction is proven to deliver exceptional strength without adding weight.

### FIVICS Pin Nock

This universal pin nock fits all standard pin nock adapters. It is made from a durable polycarbonate material that performs shot after shot.

Size: S / L

Color:

Available in two size: #1 fits 12-18 strand strings  
#2 fits 20-24 strand strings

## OUTDOOR TARGET FACE

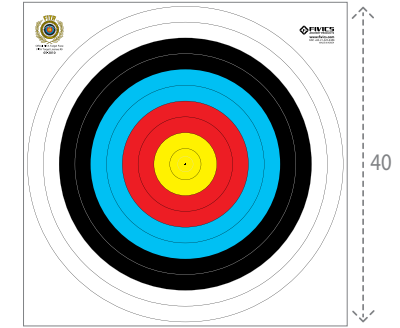

Name : OUTDOOR 122cm Target Face [PT 001]  
Range : 90m / 70m / 60m  
Mark dimension : 122cm X 122cm  
Total dimension : 125cm X 125cm (width/length)

Name : OUTDOOR 80cm Target Face [PT 002]  
Range : 50m / 30m  
Mark dimension : 80cm X 80cm  
Total dimension : 83cm X 83cm (width/length)

Name : OUTDOOR 60cm Target Face [PT 003]  
Range : 25m  
Mark dimension : 60cm X 60cm  
Total dimension : 63cm X 63cm (width/length)

Name : OUTDOOR 40cm Target Face [PT 004]  
Range : 18m  
Mark dimension : 40cm X 40cm  
Total dimension : 43cm X 43cm (width/length)

Name : OUTDOOR 40cm-5ring Target Face [PT 005]  
Range : 30m / 20m  
Mark dimension : 40cm X 40cm  
Total dimension : 43cm X 43cm (width/length)

Name : OUTDOOR(3X40W) Triangular Target face(5Line) [PT 006]  
Range : 30m / 20m  
Mark dimension : (40cm-Center X 3Target)  
Total dimension : 85cm X 85cm (width/length)

Name : OUTDOOR(4X40w) Target face(5Line) [PT 007]  
Range : 30m / 20m  
Mark dimension : (40cm-Center X 4Target)  
Total dimension : 93cm X 85cm (width/length)

Name : OUTDOOR 48cm-6ring Target Face [PT 007A]  
Range : 50m  
Mark dimension : 48cm X 48cm  
Total dimension : 51cm X 51cm (width/length)

## OUTDOOR TARGET FACE

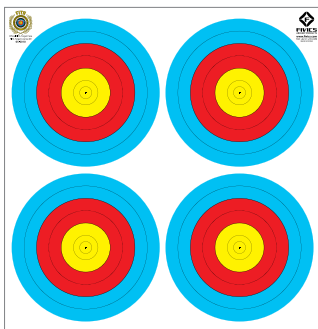

Name : OUTDOOR(3X48W) Triangular Target face(6Line) [PT 007A3]

Range : 50m

Mark dimension : (48cm-Center X 3Target)

Total dimension : 99cm X 98.5cm (width/length)

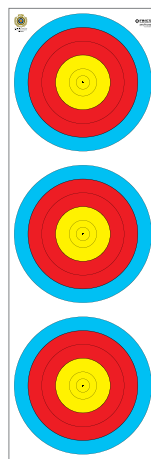

Name : OUTDOOR(4X48W) Triangular Target face(6Line) [PT 007A4]

Range : 50m

Mark dimension : (48cm-Center X 4Target)

Total dimension : 102cm X 105cm (width/length)

## INDOOR TARGET FACE

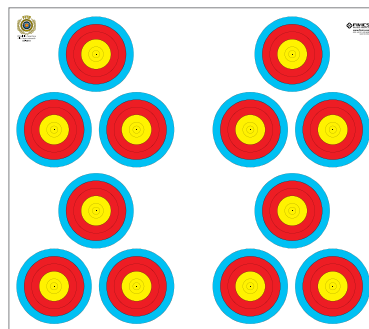

Name : INDOOR 20cm(3X20W) Target Face(18m) [PT 008]

Range : 18m

Mark dimension : 20cm X 3Target

Total dimension : 23cm X 67cm (width/length)

Name : INDOOR 12cm(3X20W)

Target Face(18m) [PT 010]

Range : 18m

Mark dimension : 20cm X 12Target

Total dimension :

103cm X 67cm (width/length)

Name : INTDOOR (4X40cm)

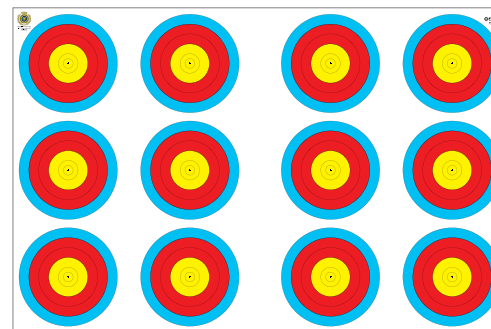

Single Target Face [PT 009]

Range : 18m

Mark dimension : 40cm X 4Target

Total dimension :

93cm X 85cm (width/length)

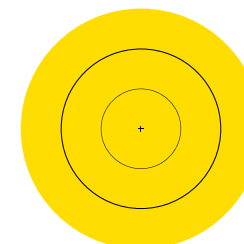

Name : INTDOOR 20cm Triangular Triple Target Face [PT 011]

Range : 18m

Mark dimension : 20cm X 3 X 12Target

Total dimension : 97cm X 85cm (width/length)

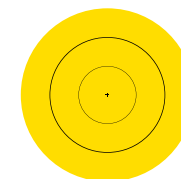

## STICKER TARGET FACE

Name : Sticker Target Face [PT 018]

Range : 90m / 70m / 60m

Mark dimension : 15.8cm X 15.8cm

Name : Sticker Target Face [PT 019]

Range : 50m / 30m

Mark dimension : 24.3cm X 24.3cm

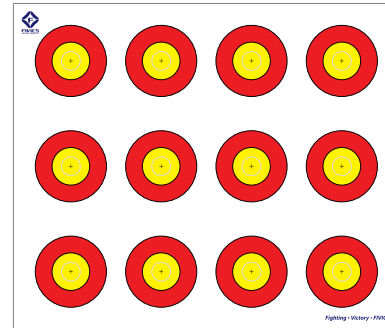

## TRAINING TARGET FACE

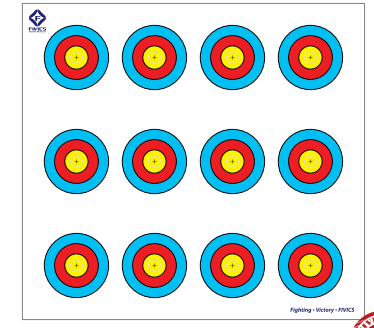

Name : TRAINING 80cm-CenterSpot Target Face(8Line) [PT 012]  
 Range : 50m/30m/20m  
 Mark dimension : 24cmX24cm  
 Total dimension : 32cmX32cm(width/length)

Name : TRAINING 122cm-CenterSpot Target Face(7Line) [PT 013]  
 Range : 90m/70m/60m  
 Mark dimension : 48.8cmX48.8cm  
 Total dimension : 61cmX61cm(width/length)

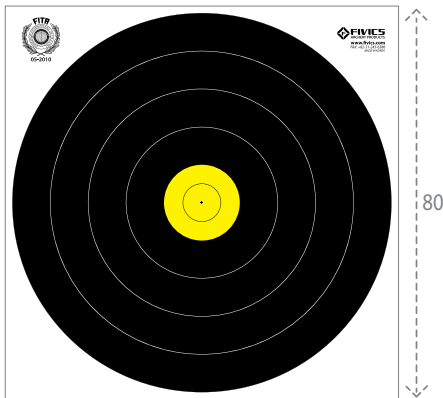

Name : TRAINING Target Face [PT 020]  
 Mark dimension : 52mmX52mm  
 Total dimension : 282mmX238mm(width/length)

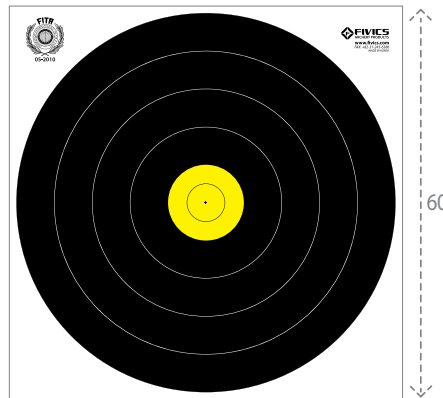

Name : TRAINING Target Face [PT 021]  
 Mark dimension : 48mmX48mm  
 Total dimension : 250mmX231mm(width/length)

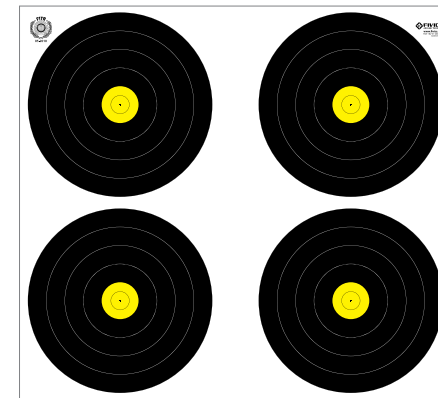

## FIELD TARGET FACE

Name : FIELD 80cm Target Face [PT 014]  
 Mark dimension : 80cmX80cm Target  
 Total dimension : 83cmX83cm(width/length)

Name : FIELD 60cm Target Face [PT 015]  
 Mark dimension : 60cmX60cm Target  
 Total dimension : 63cmX63cm(width/length)

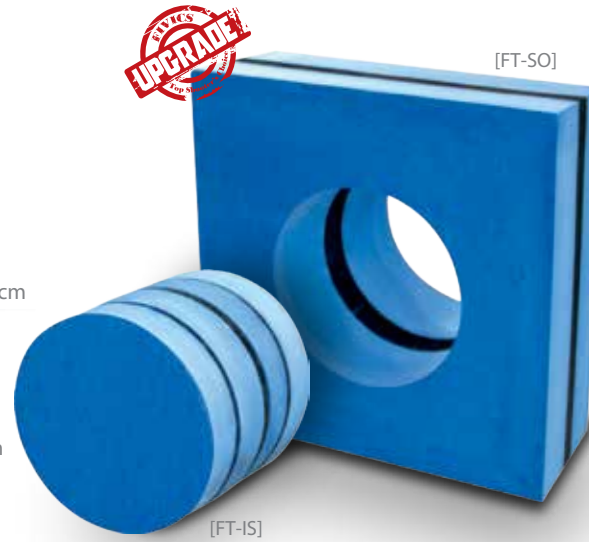

Name : FIELD 40cm(4X40W) Target Face [PT 016]  
 Mark dimension : 40cmX40cm  
 Total dimension : 93cmX85cm(width/length)

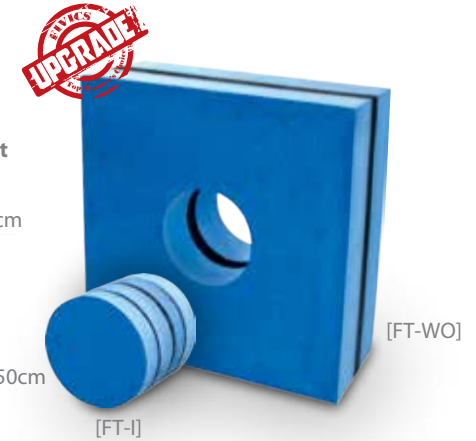

# FOAM TARGET FACE

Combination of durable form and Smart technology of FT system.  
 No impurities on FIVICS foam target,  
 No glues used.  
 Simple replacement of the incore.  
 Easy arrow removal.  
 Water proof.  
 The surface of the target foam is strong and hard enough.  
 Don't worry about any weather condition with FIVICS target face.  
 To fit your needs.

- **Name : A Foam Target**  
 Exterior A  
 Size : 125cmX125cmX18cm  
 Weight : 20.4kg
- Incore A  
 Size : 63cmX63cmX33cm  
 Weight : 13.6kg

- **Name : B Foam Target**  
 Exterior B  
 Size : 95cmX95cmX24cm  
 Weight : 22.9kg
- Incore B  
 Size : 24cm X 24cm X 50cm  
 Weight : 1.4kg

# ACADEMIC TARGET FACE

Name : OUTDOOR Target Face [PT 017]  
 Range : 70m  
 Mark dimension : 97.2cmX97.2cm  
 Total dimension : 103cmX103cm(width/length)

# PERFECT SCORE SHEET

Name : Perfect score sheet  
 Total dimension : A4(21 X 29.7)  
 Applicable under any weather condition  
 Ink not smudged

- **Name : C Foam Target**  
 Exterior C  
 Size : 104cmX104cmX9cm  
 Weight : 9.5kg

World Top shooter's with FIVICS!

## ADVANCED SPACE-AGE TECHNOLOGY

## Top Shooter's Choice!

We highly appreciate that they trust and use FIVICS products, we do our best to give them the most satisfaction through the best quality products.
